

DEBIT NETWORK FEE SCHEDULE

Reference Guide for Debit Network Pass Through Fees

SPRING 2024

DEBIT NETWORK FEE SCHEDULE

The fees in this table (or as more recently published by the Debit Networks) will be passed on to you and charged in addition to the processing fees paid to us and identified on your Fee Schedule. The amount charged for interchange, which is paid to the bank that issued the Debit Cards, will be the lesser of (a) the face amount of the transaction multiplied by the percentage rate reflected in the Interchange Fee column plus any fixed transaction amount, and (b) the Cap, if a Cap is set. Switch fees, which are paid to the PIN Debit Network, will be charged to you in addition to the interchange fee and debit processing fee. Issuing banks with more than \$10 billion in assets are Regulated by the Federal Reserve, as such are limited to interchange fees of \$0.21 + 0.05%. If the issuer develops and implements fraud-prevention standards they may assess an additional \$0.01. Interchange rates also apply to Debit Pre-Authorizations.
