

INTERCHANGE REFERENCE GUIDE

Reference guide for Interchange Program Requirements & Rates

Visa, Mastercard & Discover

(U.S. and U.S. Territory)

Spring 2024

PREFACE

A significant amount of the fees that we charge to you for processing your Credit Card and Non-PIN Debit Card transactions represents charges that We must pay to the Issuing banks (or that are otherwise charged to us by Mastercard and Visa) under Mastercard and Visa (the “Payments Networks”) rules.

This amount, called “Interchange” varies based upon a complex series of interchange levels that may apply to the transaction depending upon a number of factors – such as the type of card presented, specific information contained in the transaction, how and when the transaction is processed, your industry, and other factors.

As a result, a portion of the rate that we charge you will depend on the type of transaction and the Interchange level at which the transaction is processed. In order to qualify for any specific Interchange level, you must satisfy certain qualification criteria established by the Payments Networks. This IQM identifies the primary qualification criteria for the various Interchange levels. In reviewing the IQM, please note the following:

- The IQM is only a summary of the primary qualification criteria established by Mastercard and Visa for each Interchange level – it is not all inclusive. In the event of any ambiguity or conflict, the Interchange requirements established by the Payments Networks will determine the Interchange level at which your transactions qualify.
- Some Interchange levels require that you utilize certain additional services such as Address Verification. Some Interchange levels also require that you transmit detailed transaction data such as order numbers or hotel folio numbers. Other Interchange levels require that you transmit certain indicators reflecting the nature of your transactions (such as an “E-Commerce indicator” for internet transactions).
- Interchange levels may also be restricted to merchants in certain Merchant Category Codes (“MCC”). If you wish to qualify for any such Interchange level, please call the Customer Service number listed on your monthly statement for more information about the particular MCC and the corresponding Interchange qualification criteria.
- In some cases, transactions may be processed at a more costly Interchange level solely as a result of the type of card that is presented. For example, commercial cards, among others, will generally downgrade from some Interchange levels.
- The information in the IQM should not be used to develop software or other interfaces for transmitting transactions as technical aspects of these requirements may be much more detailed than the summary presented. If you utilize terminals, software, services or equipment provided or configured by any third party, be aware that failure by these systems to correctly and accurately transmit information in the required formats may result in your transactions not qualifying for the most favorable Interchange levels.

*** Rates listed herein are exclusive of applicable payment brand fees and assessments unless specifically otherwise noted.**

MASTERCARD COMMERCIAL CARD INTERCHANGE PROGRAMS

MASTERCARD COMMERCIAL CARD DATA REQUIREMENTS
Effective with the 06.1 Release, any MC Corporate program other than U.S Corporate Large Ticket (IRD 62) and U.S. Corporate Data Rate III (IRD 66) will no longer require all six elements to be provided
Level II Data = Tax amount, Tax indicator, Customer Code (P Cards only), Tax ID and Merchant Type Code (Tax Amount is not required for Business, Corporate and Purchasing cards at Fuel Locations: MCC 4468, 5541, 5542, 5499, and 5983)
Note: MasterCard Customer Code is required 'if provided by the cardholder'
Level III = Level II plus Line-Item Detail: Product Code, Item Quantity, Item Description, Item Unit of Measure, Extended Item Amount, Debit or Credit Indicator
Effective with the 07.1 Release, World and World Elite Business and Corporate cards will qualify for the following existing IRD's: 60, 62, 65, 66, 67, 68, 69, 76/86, 89, 91, 94, and 99

COMMERCIAL DATA RATE I CORP/PURCH = 2.70% + \$0.10
