

FFL Compliance Manager[®]

Seamlessly manage ATF compliance while streamlining your firearms business

Keeping a manual bound book is an error-prone, time-consuming, tedious set of processes—and it slows the purchase process down for customers, too. And should the ATF need information, it can take hours to pull it together and format it correctly—hours better used to serve customers and run a business.

Surprisingly, many automated solutions often fall short when accurate reports and queries are needed quickly and can also be difficult to install and maintain. Whether your business is a small, collector-focused operation or a large, multi-location retail enterprise, you'll need a logging, reporting, and recordkeeping system designed to help you meet stringent ATF requirements on a moment's notice.

FFL Compliance Manager (FFLCM) application is a robust, cloud-based system for firearms retailers that seamlessly manages ATF compliance to help boost higher profits and faster growth. This fast, easy-to-use bound book solution streamlines nearly every aspect of your firearms business, letting you focus on running a more compliant, efficient, and profitable operation.

Key Features

Compliance

- FFLCM solution transaction workflows and internal controls are designed to make ATF compliance a native and intuitive feature of the application

Assistance when and where you need it

- Help documentation, video tutorials and guided assistance are only a click away
- Real-time, in-context walkthrough tutorials guide you through an intuitive user experience

Eagle[®]

Benefits

A&D workflows and internal controls are designed to make ATF compliance a native and intuitive feature of the application

Perform self-audits, run ATF compliance reports on demand and review bound book activity with dashboards

Quickly package compliance reports required to support an ATF inspection

Leverage the e4473 Kiosk mode to allow your customers to easily complete Part A and streamline 4473 transfers

Simplify the recording and tracking of special transactions including Loans, Theft/Loss, Repairs and more

Compliance reporting made easy

- Flexible, prebuilt reports and dashboards give you valuable insight into your bound book activity
- Perform self-audits and run ATF compliance reports on demand

Bound book

- Streamline workflows and guide users through compliant Acquisition and Disposition entry
- Easily create transactions with intuitive workflows designed to promote compliance and audit management
- Create multiple bound books with multi-bound book visibility under single owner
- Transaction workflows include FFL validation with ATF eZCheck, serial number scanning, adding notes and attachments, and easily reviewing and editing transactions

Access anywhere, anytime

- Access your bound book from any web-enabled device
- No software to download or updates to install
- Provides up to date information allowing you to focus on running your business

e4473 and e3310 forms

- Leverage the e4473 Kiosk mode to allow your customers to easily complete Part A and seamlessly select and complete Part B for disposition entry
- The 4473 forms are attached to the disposition transaction and are retained for quick reporting and auditing
- FFLCM will automatically search for multiple sales within the last five business days and initiate the e3310 form

Special transactions

- Manage special transactions including Loans, Theft/Loss, Interstate Theft/Loss, Found, Scrap, Destroyed, Repairs and more
- Transaction workflows simplify the recording and tracking of special transactions in your bound book

Traces

- Conduct traces per the ATF regulation and records current and prior ATF and Law Enforcement traces
- Easily perform traces and report on trace history
- Trace firearms by manufacturer, serial number, model, type or caliber

Security

- FFLCM uses role-based security, multi-factor authentication (optional), intrusion detection and vulnerability scanning service audits, database field level encryption and scheduled daily backups

Firearm Lookup

- Easily record firearm information during an acquisition by manual entry or selecting manufacturer, model, and caliber/ gauge from a growing list of firearm records for accurate transaction entry

Device Support

- Barcode scanners, signature capture pads and document scanners integrate seamlessly into the workflows
- Scan firearms, capture signatures, and scan documents to further simplify and enhance the intuitive workflows

Import/Export

- Import transactions from a previous bound book into FFLCM
- Easily export all bound books and reports to Microsoft Excel
- Backups of your bound book information are automatically logged to the Electronic Compliance Report

e4473 kiosk mode

- Avoid bottlenecks at checkout and simplify the 4473 Part A process for your customers with FFLCM kiosk mode
- Available for use on any device, the completed e4473 forms allow for signature capture, be retained for reporting and auditing, and link to the associated transfers

Stand alone or integration options

- FFLCM is designed to stand alone or integrate seamlessly with the Eagle® solution. Together, these applications are designed to reduce redundant data entries and sync business records.

EPICOR

We're here for the hard-working businesses that keep the world turning. They're the companies who make, deliver, and sell the things we all need. They trust Epicor to help them do business better. Their industries are our industries, and we understand them better than anyone. By working hand-in-hand with our customers, we get to know their business almost as well as they do. Our innovative solution sets are carefully curated to fit their needs, and built to respond flexibly to their fast-changing reality. We accelerate every customer's ambitions, whether to grow and transform, or simply become more productive and effective. That's what makes us the essential partners for the world's most essential businesses.
