

The Power of Information

Grow your aftermarket business each day
with world-class electronic catalog solutions

EPICOR

"The performance of our electronic catalog is the number one function of our parts business," reports one store executive. "From open to close, it's about providing the right information to help our customers be more successful. And when it comes to that responsibility, Epicor is the gold standard."

Be the Best. Use the Best.

The automotive parts and service industry is built around the power of information—critical product and repair data, images, technical bulletins, and diagnostic and installation instructions available at the fingertips of parts professionals, service writers, technicians, and consumers. Information that drives virtually every repair estimate, service opportunity, and part sale.

For more than 40 years, Epicor® has been the premier source of this information. Each day tens of thousands of parts and service professionals rely on Epicor electronic catalog products because they recognize the importance of doing the job right the first time, every time. By providing Epicor eCatalog and data solutions to their employees, thousands of business owners are ensuring increased customer satisfaction and loyalty through fast, efficient, professional service.

Epicor PartExpert® for Distributors

PartExpert Professional Package

Featuring over 12 million part numbers and in excess of 13,000 manufacturer lines, Epicor PartExpert is the aftermarket's most complete and accurate database of replacement parts and related products for cars, light trucks, medium-duty trucks, and powersports. This world-class data set, featuring unparalleled coverage of domestic and foreign nameplate models from 1962 to the current year, is referenced in more than 70 percent of all aftermarket part sales in North America.

By selecting the PartExpert Professional package, your business will enjoy full access to the PartExpert replacement parts database as well as the following additional modules and tools:

- ▶ Cover-to-Cover® part images, specifications, and more
- ▶ Integrated VIN decoder
- ▶ "All Lines" feature (Full access to all product lines)
- ▶ OE Carry-Forward™ coverage updates
- ▶ Manufacturer pricing files
- ▶ Thumbnail images of parts embedded into lookup results
- ▶ MCL by Description and Make feature
- ▶ InterChange® OE and competitive interchange
- ▶ BuyerAssist® buyer's guide
- ▶ ItemExpert® non-application products database
- ▶ Dynamic Updates™ weekly internet eCatalog updates
- ▶ PartExpert Editor eCatalog customization tool

Add-on modules available:

- ▶ PartExpert GFX™ graphical lookups
- ▶ Vehicle license plate lookup
- ▶ Vehicle Specifications & Capacities
- ▶ PartExpert OE
- ▶ Epicor Service Essentials

PartExpert Essentials Package

Businesses selecting the PartExpert Essentials package will have full access to the PartExpert replacement parts database and the following additional modules and tools:

- ▶ Cover-to-Cover part images, specifications, and more
- ▶ Integrated VIN decoder

- ▶ InterChange OE and competitive interchange
- ▶ Dynamic Updates weekly online eCatalog updates
- ▶ OE Carry-Forward coverage updates
- ▶ Manufacturer pricing files
- ▶ MCL by Description and Make feature
- ▶ PartExpert Editor eCatalog customization tool

Add-on modules available:

- ▶ PartExpert GFX graphical lookups
- ▶ Vehicle license plate lookup
- ▶ Vehicle Specifications & Capacities
- ▶ PartExpert OE
- ▶ Epicor Service Essentials

Add-on modules

PartExpert GFX graphical lookups

Quickly find all the parts needed for a repair through interactive vehicle system diagrams linked with product data, images, and other valuable intelligence.

Vehicle license plate and VIN decoding

Using a license plate number or VIN to decode a vehicle and its options helps ensure the accuracy of the part information as well as saving time when searching for parts or labor.

PartExpert OE

The optional PartExpert OE feature offers one-click access to an OE parts database covering popular automotive applications. It is particularly helpful for import parts specialists and other wholesalers who rely on parts from aftermarket manufacturers that follow OE part numbering systems.

The OE for Parts Not Found feature enables users to identify the OE part number for applications for which no equivalent aftermarket part is readily available.

Service Essentials

Designed for wholesalers and other aftermarket companies that operate service bays, the Service Essentials module includes the following eCatalog tools:

- ▶ ServicePlus™ OE maintenance intervals selling tool
- ▶ LaborExpert™ estimating tool
- ▶ TireExpert™ tire database

Epicor PartExpert for Service Providers

Epicor PartExpert for Service Providers

As a leader in aftermarket product and service content, Epicor provides comprehensive data solutions that can be integrated seamlessly into most shop management systems.

PartExpert for Service Providers

- ▶ PartExpert Aftermarket parts database
- ▶ Cover-to-Cover part images, specifications, and more
- ▶ Integrated VIN decoder
- ▶ "All Lines" feature (Full access to all manufacturer product lines)
- ▶ Thumbnail images of parts embedded into lookup results
- ▶ Powersports application data
- ▶ InterChange OE and competitive interchange
- ▶ LaborExpert flat-rate labor estimating tool
- ▶ ServicePlus OE maintenance intervals database
- ▶ TireExpert OE fitment and replacement tire guide
- ▶ Dynamic Updates weekly internet eCatalog updates

PartExpert ShopCAT® for Service Providers

- ▶ LaserCat 3® Windows-based user interface
- ▶ PartExpert Aftermarket parts database
- ▶ Cover-to-Cover part images, specifications, and more
- ▶ Integrated VIN decoder
- ▶ "All Lines" feature (Full access to all manufacturer product lines)
- ▶ Thumbnail images of parts embedded into lookup results
- ▶ Powersports application data
- ▶ InterChange OE and competitive interchange
- ▶ LaborExpert flat-rate labor estimating tool
- ▶ ServicePlus OE maintenance intervals database
- ▶ TireExpert OE fitment and replacement tire guide
- ▶ Dynamic Updates weekly internet eCatalog updates

Add-on modules available:

- ▶ PartExpert GFX graphical lookups
- ▶ PartExpert OE
- ▶ Vehicle license plate lookup
- ▶ Buyer Essentials package (BuyerAssist & ItemExpert)

Guide to PartExpert Packages

	Distributor		Service Providers	
	LaserCat 3 Systems	UNIX-based Systems		
	Professional	Essentials		ShopCAT
PartExpert Database —The aftermarket's most extensive replacement parts database, with more than 13,000+ product lines from 4,400+ industry suppliers. Featuring coverage from 1962 to the current year.	X	X	X	X
Cover-to-Cover —Provides the comprehensive content (images, specifications, installation instructions, and more) of a printed master catalog combined with the speed and efficiency of a leading-edge electronic catalog. <ul style="list-style-type: none"> • Millions of images and other value-added files • Multiple product views for increased accuracy • Manufacturer-supplied installation instructions and technical bulletins • Ability to view, print, and email content to customers 	X	X	X	X
ItemExpert —Helps users identify any of thousands of popular non-application and universal parts needed for a broad range of repairs and other jobs. Includes 58 categories and nearly 2,000 types of products commonly sold by automotive parts distributors, jobbers, and retailers.	X			
Integrated VIN Decoder —Saves time and eliminates errors by accessing highly detailed and accurate information for passenger vehicles manufactured since 1962.	X	X	X	X
BuyerAssist —Full-featured electronic buyer's guide helps users pinpoint critical information on any of millions of parts, such as application counts by make, model, or engine; list price; core charges; package quantities; popularity codes; per-vehicle quantities; and more. <ul style="list-style-type: none"> • Enables better, faster buying decisions • Helps streamline inventory while reducing lost sales 	X			
All Lines —Enables user to access detailed information for brands and products not carried by their business. With this information, the business can save the sale or service opportunity by ordering the part or other product through a nearby supplier.	X			X
InterChange —Powerful electronic cross-reference database featuring up-to-date listings for Original Equipment Manufacturer (OEM) to aftermarket and aftermarket to aftermarket interchanges for passenger car, light truck, medium and heavy truck, small-engine, marine, motorcycle, agricultural, industrial, and RV applications. <ul style="list-style-type: none"> • Nearly 60 million interchange listings 	X	X	X	X
Powersports —Includes thousands of up-to-date parts listings for such popular powersports applications as personal watercraft, snowmobiles, ATVs, and more.	X			X
OE Carry-Forward —Automatically updates eCatalog coverage to the next model year in cases when a specific component is "carried forward" by the vehicle manufacturer. Also helps eliminate possible coverage gaps for older applications in some manufacturer product lines.	X	X	X	
Manufacturer Pricing Files —Helps save time and protect margins by integrating information from latest manufacturer-supplied price sheets.	X	X	X	X
MCL by Description and Make —Enables users to establish product/brand/pricing display priorities for part description and/or vehicle make. This added sequencing allows users to determine which products, brands and price points are displayed, and in what order, to reflect sales preferences/practices.	X	X		X
Thumbnail Images —Embedded product images from Cover-to-Cover module appear alongside part number in initial lookup results to help save time and reduce product returns.	X			X

PartExpert Data Server (PEDS) Cloud

PEDS Cloud offers seamless connectivity to the PartExpert data engine, providing content APIs that can be integrated with existing eCommerce websites, catalog applications, and shop management systems. PEDS Cloud enables customers to build their own user interface that uses a variety of vehicle parameters to look up detailed parts information.

PEDS Cloud includes:

- ▶ Weekly cloud data updates for the U.S., Canada, and Mexico
- ▶ Content available in English and Spanish
- ▶ Thumbnail images of parts embedded into lookup results
- ▶ Cover-to-Cover—part images, specifications, and manufacturer documentation
- ▶ Epicor InterChange—OE to aftermarket and aftermarket to aftermarket cross-reference

- ▶ Epicor Parts Network (EPN) eCommerce connectivity
- ▶ Many other optional features

Packages:

- ▶ Catalog Only—for users with non-Epicor systems and/or catalog-only websites
- ▶ Catalog and Connectivity—for eCommerce resellers
- ▶ Epicor ServiceExpert®—for service dealer applications and shop management system VARs
