

# [HQ] Headquarters™

## Industry-Leading EDI Mapping and Translation Software Solution

EDI HQ software gives you full control of your EDI operations, allows you to satisfy even the toughest trading partner and customer requirements, integrates your EDI data with all of your systems, and streamlines your business operations for optimal efficiency and compliance.

### EDI with Full Control

Epicor® EDI HQ software gives you full control of EDI operations, transaction visibility and data access. HQ simplifies business processes and satisfies trading partner requirements. Features include:

- An easy-to-use modern interface
- A "one-click" trading partner set-up process to minimize set-up time and configuration errors
- Seamless integration with ERP platforms, including Epicor, SAP, Sage, Oracle, JD Edwards, and other, including custom back-office systems
- An intuitive and flexible EDI data mapper allowing for fully automated B2B business document process to fit your operations
- Unparalleled reporting for complete transparency and notifications of EDI errors so you can stay in-front of your EDI operations and develop strong trading partner relationships
- A flexible and scalable solution that grows with your business
- A custom operations dashboard, alerts and research capabilities that fit your unique business goals
- Self-management of the EDI infrastructure or Epicor EDI hosted

### + Benefits

Greater visibility - Comprehensive alerts and a fully tailored dashboard provide immediate insights on the health of business relationships

Integration - Streamline operations by integrating HQ with other systems, including ERP, accounting, warehouse management and other back-office applications

Flexibility - Tailored to your business needs now and in the future, using our one-click trading partner onboarding and real-time mapper

Security - Full compliance with industry standards, making it easy to send secure EDI or other data, create and manage certificates, and handle data encryption and decryption

Customization - Full customization control and visibility over your maps to help ensure your EDI rules are aligned to your operations

## Manage EDI Your Way

Both HQ On-Premise and HQ Hosted implementations allow you to fully leverage integrated ERP solutions. Epicor EDI simplifies your business process through enhanced EDI visibility, enabling you to respond to partner requirements instantly, elevate relationships, and take business to a whole new level.

### On-Premises

An on-premise implementation allows you to take control of your EDI operations entirely. With the on-premise option, all of your data stays on your servers. If needed, we assist with set up and integration and then pass on full control over the environment.

### Hosted

If you don't want the maintenance involved in managing your own servers, but still need a full-service EDI solution, you can choose a hosted-based solution. Epicor EDI will maintain and store your data on our servers. We monitor and maintain underlying infrastructure servers, backups, disaster recovery and trading partner communication channels.

## EDI Support

Epicor EDI offers flexible and scalable solutions supported by experienced EDI consultants. We have over 30 years of EDI experience and a full suite of EDI solutions to fit your needs. Our primary focus is helping our clients operate more efficiently and effectively.

### Training with EDI Experts

Epicor EDI regularly trains users to maximize their investment in an EDI system. Our comprehensive training can be in person at our Solon, OH office or via monthly webinars.

### Utilize Our Expertise & Support

In addition to in-house expertise with Epicor platforms, we also have built-in relationships with many commercial back-office systems throughout the U.S., including but not limited to Oracle, SAP and Microsoft® Dynamics. We provide support during the integration process and beyond. Epicor EDI also integrates well with custom-developed ERP solutions. Our flexible mapping and integration options will help ensure smooth data flow between your systems.

## Need to Outsource Your EDI?

In addition to HQ, Epicor EDI offers a fully-managed EDI solution. ManagedXchange [MX] supports EDI needs behind the scenes by handling the hardware, software, staffing, security, trading partner relationships and other components. With 24/7 dedicated support, it offers higher productivity and lower IT investment, translating into a higher ROI. Ask us about MX to see if a managed solution is right for you.

## EPICOR

We're here for the hard-working businesses that keep the world turning. They're the companies who make, deliver, and sell the things we all need. They trust Epicor to help them do business better. Their industries are our industries, and we understand them better than anyone. By working hand-in-hand with our customers, we get to know their business almost as well as they do. Our innovative solution sets are carefully curated to fit their needs, and built to respond flexibly to their fast-changing reality. We accelerate every customer's ambitions, whether to grow and transform, or simply become more productive and effective. That's what makes us the essential partners for the world's most essential businesses.
